# WELCOME

To our 6th Annual Music and Arts Cultural Awareness Extravaganza. Each year we host this event to raise funds for programs and showcase the projects our youth have been working on during the year.

The mission of Anointed Vessel Productions is to bring together community actors, dancers, singers and musicians to perform in thought provoking stage plays that are customized to raise public awareness on various social matters while providing practical life solutions. We provide arts integrated educational programs for disadvantaged youth ages 11-17. We also provide vocational training, work experience and internship opportunities for young adults ages 16-24 in the Inland Empire.

Established in 2007, Anointed Vessel Productions is a 501(c)(3) nonprofit arts and culture organization. We accomplish our mission through community partnerships with schools, family resource centers, youth opportunity centers, youth service organizations, foster family agencies and community libraries. Our outreach services are accomplished through indie theater specializing in plays grounded in reality with relatable characters and struggles. Our programs utilize arts integration as a platform for creative expression and positive self identity to promote increased confidence, pro-social behavior and improved academic achievement.
